# Part I
# Time Sheet

## 1   Planning

For the API planning we invested about 3 hours meeting.

## 2   Coding

The coding time of the delivered API (package `api` and sub-packages) is located around 1 hour.

## 3   Documentation

For writing the documentation of the delivered API, about 4-5 hours were spend.

## 4   Review

### 4.1   Code

The code review took not too long, just 0.5 hours.

### 4.2   Documentation

The review of the documentation was split into individual and general review during a meeting. All in all somewhere between 1 and 2 hours of documentation review we had.

## 5   Total

The delivered API (package `api` and sub-packages) the working time is build up as followed:

| Task | Time (in hours) |
| --- | --- |
| Planning | 3 |
| Coding | 1 |
| Documentation | 5 |
| Review - Code | 0.5 |
| Review - Doc | 2 |
| Total | 11.5 |
