Part I
Time Sheet

1 Planning

For the API planning we had a meeting which lasted three hours.

2 Coding

The coding time of the API methods (package `api` and sub-packages) took around 1 hour.

3 Documentation

The documentation of the API methods took about 5 hours.

4 Review

4.1 Code

Each team member spent 0.5 hours reviewing the code structure and classes.

4.2 Documentation

The review of the documentation was split into an individual and a team review and discussion during a meeting. All in all each member spent an hour reviewing the documentation and we had a one hour meeting to review the documentation.

5 Total

The delivered API (package `api` and sub-packages) the working time is build up as followed:

Task	Time (in hours)
Planning	3
Coding	1
Documentation	5
Review - Code	0.5
Review - Doc	2
Total	11.5
